NOTICE: When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government incurs no responsibility, nor any obligation whatsoever, and the fact that the Government may have furnished, furnished, or in any way supplied the said drawings, specifications, or other data is not to be construed as an endorsement, approval, or recommendation of the manufacturer, use, or sale of any product, process, or method, or as an implied warranty of fitness for any purpose, or as an implied warranty of liability for any patent infringement that may, in any way be related thereto.

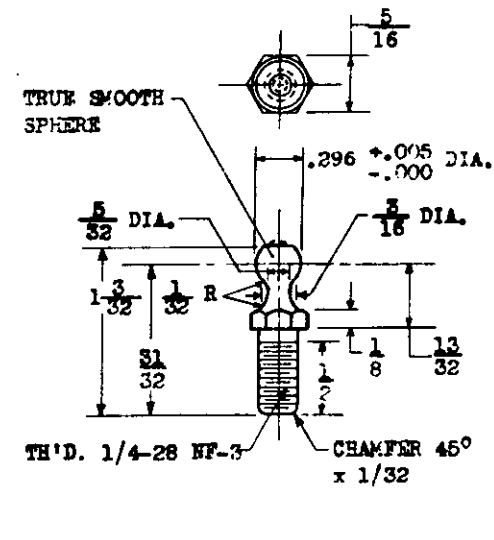

NOTE: This drawing was approved by joint action of the War and Navy Departments as the Army-Navy standard for the procurement of the item shown. It may be put into effect, however, at an earlier date after promulgation.
