CHAPTER 1

GENERAL - NSTM PUBLICATIONS INDEX AND USER GUIDE

SECTION 1.

INTRODUCTION

001-1.1 **PURPOSE**

556-1.1.1 The purpose of the **Naval Ships' Technical Manual (NSTM)**, is to provide technical information to personnel engaged in the supervision, operation, or maintenance of ships of the United States Navy. The various chapters and volumes of the NSTM contain detailed administrative and technical instructions that amplify U.S. Navy Regulations and other authoritative documents. These instructions are designed to assist afloat personnel in the satisfactory management of ships and shipboard machinery and equipment in order to achieve optimum performance throughout each ship's life cycle and to ensure readiness for any assigned mission. The NSTM is not intended to be a compendium of design and engineering information, nor an all-encompassing document covering all ramifications of shipboard equipment.

556-1.1.2 When conflict exists between the NSTM and any other related document, such conflict shall be forwarded by TMDER for resolution (see paragraph 001-2.8). Pending resolution, the document related to a specific equipment/system normally will take precedence.

001-1.2 AUTHORIZATION

556-1.2.1 This manual is issued under the authority of Article 0105, United States Navy Regulations .

001-1.3 SCOPE

556-1.3.1 Unique procedures and requirements for ship systems and equipment are contained in technical manuals for those systems and equipment. A listing of these documents can be found in the ship Index of Technical Publications, formerly known as the Publication Applicability List.

556-1.3.2 The NSTM also provides information for industrial activities involved in ship and equipment repair and overhaul.

556-1.3.3 The chapters, volumes, and sections of this manual contain preventive and corrective maintenance information of a general nature, but are not intended to take precedence over the **Planned Maintenance System** (PMS) procedures that are in effect.

SECTION 2.

RESPONSIBILITIES, MAINTENANCE AND UTILIZATION

001-2.1 AVAILABILITY

556-2.1.1 The NSTM, S9086-00-STM-000, is available in both hard copy (paper) and compact disk (CD-ROM) form S9086-AB-ROM-010. The complete manual is often referred to as a set of NSTM because of its multichapter composition. However, each chapter (or volume of a chapter) has a different title (topic) and bears a unique publication ordering number, since individual chapters are also requested. Distribution of formal changes (updates), chapter/volume revisions, and new chapters/volumes is made according to separate distribution lists maintained for each chapter, and requires no action on the part of activities already on the lists. A complete list of chapters is in Table 001-3-1.

001-2.2 TECHNICAL INFORMATION NEED

556-2.2.1 Users having a pressing need for reference copy are encouraged to consult technical libraries of activities or installations involved in the support of fleet maintenance and modernization.

001-2.3 ORDERING HARD COPY

001-2.3.1 To order individual NSTM chapters, the following procedures should be used:

1. Using the stock number, order your NSTM chapter from the Navy Supply System using MILSTRIP format. Your order should be directed to:

Navy Inventory Control Point (NAVICP) Code 334 700 Robbins Avenue Philadelphia, PA 19111-5098

- 2. If your NSTM chapter has not arrived within 2 weeks and you have not received supply status via MILSTRIP from NAVICP, you should follow up on your requisition by contacting NAVICP Customer Service at (215) 697-2267 or DSN 442-2267.
- 3. If your unit identification code (UIC) (or OPFAC code for Coast Guard customers) is not recognized by NAV-ICP, you should contact NAVICP by writing, or phone (215) 697-2266 (DSN 442-2266) for assistance. Defense Contractors should submit their request in writing, with justification, to:

COMMANDER SEA 09T3 NAVSEASYSCOM 2531 Jefferson Davis Hwy Arlington, VA 22242-5160 (703) 602-3209

001-2.4 DISTRIBUTION

556-2.4.1 NSDSA maintains the NSTM distribution lists and will evaluate, verify, and validate all requests for the NSTM. Activities requesting addition to or removal from the distribution lists, or reduction in current allowance need only contact the NSDSA or submit NSTM automatic distribution requirements list to:

COMMANDER

Code 5E30 (Distribution) NAVSURFWARCENDIV 4363 Missile Way Port Hueneme, CA 93043-4307 FAX: (805) 228-0351

001-2.5 ORDERING COMPACT DISK (CD-ROM)

556-2.5.1 In consonance with NAVSEA direction for paper reduction aboard ship, US Navy and Coast Guard Ships are encouraged to request deletion from hard copy distribution and addition to NSTM on Compact Disk - Read Only Memory (CD-ROM) distribution when that form is compatible with their needs. The entire NSTM is contained on one CD-ROM. The retrieval software requires Windows and is needed to run the CD-ROM version. All software and files needed to use the NSTM on CD-ROM are installed on the CD-ROM. Because of printing costs, it is desired activities select CD-ROM in place of hard copy whenever feasible. Distribution of CD-ROM updates is made to activities on the CD-ROM distribution lists. Order CD-ROM sets by submitting a requisition to NAVICP per procedure in paragraph 001-2.3.1 using stock number 0901-LP-015-4690.

NOTE

Advance Change Notices (ACN's) are now available on the CD-ROM.

001-2.6 DISPOSAL/ACTIVATION/DEACTIVATION

556-2.6.1 Dispose of cancelled, obsolete, and superseded NSTM documentation promptly, according to SEC-NAVINST 5720.42C. Accounting is not required.

001-2.7 FORMAL CHANGES AND REVISIONS

556-2.7.1 A formal change is comprised of one or more replacement pages for an existing chapter/volume, issued to holders on record and intended for insertion into the appropriate document. A formal revision is a superseding issue of an entire chapter or volume. Formal changes and revisions are printed and published as permanent replacements for parts of the NSTM until they, in turn, are superseded. Holders on record for hard copy and CD-ROM will receive these updates without further action; however, tenite covers will not be provided.

556-2.7.2 The information that changed on replacement pages (change package only, not a revision) is identified by a vertical bar (change bar) in the outer margin adjacent to the change text. An illustration or table change is indicated by a change bar on the left margin of the title.

556-2.7.3 Due to the digitization program, all changes, subsequent to the initial automatic distribution, will be incorporated with the basic chapter. Thereafter, all requisitions for changes will be filled with the entire basic and all changes inserted. If you receive a change package on automatic distribution, incorporate with basic chapter. If you order a change at a subsequent time you will receive a package that will replace your entire volume or chapter.

001-2.8 FEEDBACK

556-2.8.1 To facilitate feedback commentary, copies of NAVSEA Form 4160/1, Technical Manual Deficiency/ Evaluation Report (TMDER), are included at the end of each newly published and revised chapter or volume. The completed form may be folded and taped, revealing the pre-addressed, franked cover. No further address is required. All feedback comments will be thoroughly investigated and originators will be advised of any action resulting therefrom. Additional copies of NAVSEA Form 4160/1 may be requisitioned from NAVICP, see paragraph 001-2.3.1.

001-2.9 LIFE CYCLE MANAGER

556-2.9.1 A Life Cycle Manager (LCM) is assigned for each individual NSTM Chapter. The LCM is responsible for the technical content of the chapter. LCM's will periodically issue changes and revisions to keep technical information current. However, LCM's are not normally available as an information "hot line". Instead, refer urgent technical problems to the In-Service Engineering Agent (ISEA) assigned to the equipment. The ISEA for answering technical questions concerning Hull, Mechanical and Electrical Equipment comprising most of the NSTM is located at the Naval Surface Warfare Center, Carderock Division, Naval Station, Philadelphia, PA 19112-5083, Code 1431, commercial (215) 897-1222, or DSN 443-1222. LCM's for each chapter are listed in the Technical Data Management Information System (TDMIS) data base under the Publication Number for the chapter.

SECTION 3.

NAVAL SHIPS' TECHNICAL MANUAL STRUCTURE

001-3.1 INTRODUCTION

556-3.1.1 The NSTM consists of a set of approximately 100 chapters numbered between 001 and 999 in nonconsecutive sequence, see Table 001-3-1.

001-3.2 CHAPTER NUMBERING

556-3.2.1 Under the Naval Sea Systems Command (NAVSEA) current practice, the NSTM chapter numbers are structured into a three-digit system. Under the Naval Ship Systems Command before 1976, NSTM chapters were numbered according to a four-digit system. The four-digit chapter numbers are being replaced by three digit numbers.

001-3.3 TMINS

556-3.3.1 Conversion of the National Stock Numbers (NSN's) to the Technical Manual Identification Number System (TMINS) is according to NAVSEA N0000-00-IDX-000/TMINS, **Application Guide and Index for the Navy Standard Technical Manual Identification Numbering System (TMINS)**. The NSN for a four-digit chapter is assigned a TMIN upon revision and publication as a three-digit chapter.

001-3.4 ADVANCE CHANGE NOTICES

556-3.4.1 An Advance Change Notice (ACN) is prepared as an addendum to a chapter of the NSTM when there is insufficient time to prepare and publish a permanent (formal) change. ACN's are distributed to NSTM holders on record having a need for the information. ACN's are now available on the CD-ROM. The ACN's are incorporated into the text in each applicable chapter. Formal chapter changes and chapter revisions incorporate outstanding ACN's. The assigned ACN number provides dual information: a number capable of serialization, separated by a slash, and the prospective change level to a chapter. For example, the first ACN issued to an NSTM Chapter after change B is designated ACN 1/C. ACN number assignment and distribution are controlled by NAVSEA. Copies of NSTM ACN's are available upon request by contacting the NSDSA, (805) 228-0468 or DSN 296-0468.

001-3.5 TABLES IN THIS INDEX

556-3.5.1 Table 001-3-1 is a compilation of currently available NSTM documentation (chapters, volumes, sections, revisions, changes, and amendments). Periodically, a revision to this chapter will be issued to update text and tables. Documentation previously issued, but retired from the current Table 001-3-1, has been superseded or cancelled. Users may obtain current status information on any NSTM publication from NSDSA, (805) 228-0378, or DSN 296-0378.

556-3.5.2 Table 001-3-2 is an alphabetical list of current chapter titles, with corresponding chapter numbers.
